Neal Hedges’ mixed media wildlife sculptures blend material, texture and color in an unusual way to capture the essence of his beasts. His works are inspired and informed by his lifelong work as a wildlife biologist.

Diana Sanford’s paintings in mixed media, pastel and oil, though most often painted in a non-objective, spontaneous process, refer back to landscape and the light and patterns in nature. Diana is also fascinated by new findings in the neurobiology of process and teaches a workshop focusing on the experience of painting.

The wilderness legacy that ensued from this visit guarantees our sense of place in Washington State today with the formation of national wildlife refuges, national forests and parks, and national monuments. This presentation combines music, anthropology and history. Woodward also discusses Theodore Roosevelt’s signature approach to getting things done: combining politics with citizenship that crossed all political lines and built legacies for future generations, as well as establishing the sense of place we have today.

It authorized the forced removal and incarceration of more than 120,000 U.S. residents of Japanese ancestry (Nikkei)—nearly two-thirds U.S. citizens—from the West Coast to concentration camps. Between 1942 and 1944, some 33,000 individual contracts were issued for seasonal farm labor, with many incarcerated Japanese Americans working in the sugar beet industry. Morgen Young will discuss the history of the Japanese American farm labor camp near Nyssa, Oregon. *Harvest Heritage: Agricultural Origins and Heirloom Crops of the Pacific Northwest* (WSU Press, 2014) relates the remarkable story of the Columbia Basin’s transformation from 19th century prairie grasslands to one of the world’s most productive farmland regions. Historian and Palouse Country native Richard Scheuerman of Seattle Pacific University shares through stories and colorful images about his detective hunt to determine the original varieties of wheat, barley, and other crops brought to the Northwest during the frontier fur trade era. His presentation also discusses recent efforts to restore heirloom production and considers the relevance of this work to 21st century artisan bakers and craft brewers who seek new insights for product identity and authenticity. Pick up a copy of Scheuerman’s book in our Museum Store and have it signed after the presentation!
