## **CORRESPONDENCE: WSDOT SURVEY FORM**

## **OLD BUSINESS:**

A. Snow Removal Contract. Mr Harer was at the meeting to discuss the issuance of a contract for snow removal. A contract has not been awarded because of the following:

1. The City wants the contractor to have \$2,000,000 insurance. Business usually have that amount of insurance or can obtain it on their business but not on locations outside their place of business, i.e. runways and taxiways.
2. The city also wants a contractor to have, "Production Completion" insurance, which is not readily available.
3. These insurance policies are expensive and would drive the cost of the work to levels that would require higher rental rates on the airport.
4. Even if the city would take over the job the need for insurance does not change.

There was much discussion. The only action taken was to investigate the aviation rider on the city insurance and other insurance possibilities. Mr. Harer will continue to pursue answers.

For now, if snow accumulations are less than 2" a NOTEM will be issued stating the depth. When the snow accumulations exceeds 2" the airport will be closed and a NOTAM to that effect will be issued..

B. Soil sterilization and the billing thereof is in the hands of Tom Dent. He was not present to supply information.

C. Weed control. This item also is in the hands of Tom Dent.
