

MOSES LAKE'S MOST WANTED:

CLEAN WATER ENEMY NO. 1:

FIDO (AKA "WALKIES")

Wanted for:
Beach closures

When it comes to bacteria and parasites, pets are lean, mean pollutant-distributing machines!

Pet waste is a significant contaminant to surface waters.

When it rains, pollution from pet waste can wash directly into storm drains and gutters and eventually into our waterways – **UNTREATED!**

DON'T BE FOOLED: Pet waste is raw sewage!

**BE A HAPPY, HEALTHY
PET OWNER –
SCOOP THE POOP!**

Want more tips? Call the Stormwater Department!
