All work shall comply with applicable codes and standards including NFPA and the MLMC.

The completed installation shall pass a visual inspection and operational test witnessed by a representative of the fire department. A diagram of the location where appliances have required coverage posted on agent cabinet. Please call the permit technician with at least 24 hours notice for inspections.

In addition to a Range Hood permit issued by the Fire Department, additional Building, Electrical, and or Mechanical permit (s) and inspections maybe required by the other departments.

I hereby acknowledge that the information I have provided is correct and I agree to comply with all State and City laws and any ordinances regulating construction. I understand and agree the City of Moses Lake Fire Department has no obligation to explain every requirement and ordinance to me prior to approval of my project. I also acknowledge by signing this application I authorize any City of Moses Lake personnel access to the property at all reasonable times to ascertain relevant information, including the current condition of the property, and perform any and all inspections.

The issuance of a permit based on plans, specifications and other data shall not prevent the Fire Marshal from thereafter requiring the corrections of the errors in said plans, specifications and other data, or preventing building operations when in violation of this code of any State or City laws, rules or regulations. The granting of this permit or an approval does not presume to give authority to violate or cancel the provisions of any other Federal, State or City laws regulating construction, the performance of construction and/or operation of the project. Every permit issued under the provision of the MLMC shall expire by limitation and become null and void if the work authorized is not commenced for a period 180 days. I hereby certify that as a contractor I am currently registered and properly licensed as defined in RCW 18.27.
